

Sustainability Policy Statement

Capital Reinforcing recognises and acknowledges our obligations to improve the environment we in and our responsibilities to all interested parties affected by our operations.

The world has finite resources, rapidly depleting and Capital Reinforcing's management are committed to making significant contribution to improving the world in which we live by implementing our policy of sustainable processing of reinforcing steel products and services. This is based on the prevention of pollution and the reduction of the company's environmental impacts as well as the social and economic wellbeing of its interested parties.

Capital Reinforcing makes a commitment to:

- Ensuring 100% traceability of our product. Our product will always be traced back to the manufacturer.
- 100% of our reinforcing bar shall be sourced from Cares Sustainable Constructional Steel approved and BES6001 approved Mills.
- Monitor and minimise transport impacts.
- Maximising material efficiency and the use of recycled materials.
- Reduce energy intensity.
- Use water responsibly.

The company shall comply with legal and other requirements to which it subscribes in relation to its environmental impacts and corporate social responsibility.
